1. The copper ore production quota for the fourth quarter of 1949 was 220,000 tons. During the months October - November, 123,354 tons of copper ore were mined. Bergbau Mansfeld is the only source. As of 30 November, the daily production had almost reached the quota.
2. The quota for production of crude iron for the fourth quarter of 1949 was 68,000 tons. Actual production during October - November totalled 49,261 tons, all of which was furnished by the Maximilianshütte, Unterwellenborn. The annual quota for 1949 was filled by 29 November.
3. The crude steel production quota for the fourth quarter of 1949 was 124,000 tons. Actual production during October-November was 19,740 tons at the Stahlwerk Hennigsdorf, 29,954 tons at the Maximilianshütte, and 38,322 tons at the Stahlwerk Riesa.
4. The production at the Hennigsdorf plant with 17,572 tons, at the Maximilianshütte with 33,601 tons, and at the Riesa plant with 8,081 tons accounted for 74% of the rolled steel production during October - November. The combined quota of these plants for the fourth quarter was 85,900 tons. The Hennigsdorf plant was slowed down by necessary repairs, Stahlwerk Riesa was short of steel. The Maximilianshütte filled the 1949 production quota for rolled steel on 29 November 1949.
